Definitions for Target Group Question

REFER TO LTC FS INSTRUCTIONS

FRAIL ELDER means an individual aged 65 or older who has a physical disability, or irreversible dementia, that restricts the individual's ability to perform normal daily tasks or that threatens the capacity of the individual to live independently. (HFS 10.13(25m)).

PHYSICAL DISABILITY means a physical condition, including an anatomical loss or musculoskeletal, neurological, respiratory or cardiovascular impairment, which results from injury, disease or congenital disorder and which significantly interferes with or significantly limits at least one major life activity of a person" (WI Statutes 15.197(4)(a) 2).

"**Major life activity**" means any of the following: A. Self-care. B. Performance of manual tasks unrelated to gainful employment. C. Walking, D. Receptive and expressive language, E. Breathing, F. Working, G. Participating in educational programs, H. Mobility, other than walking, I. Capacity for independent living." (WI Statutes 15.197(4)(a)1).

FEDERAL DEFINITION OF DEVELOPMENTAL DISABILITY: A person is considered to have mental retardation if he or she has – (i) A level of retardation described in the American Association on Mental Retardation's Manual on Classification in Mental Retardation , or (ii) A related condition as defined by 42 CFR 435.1009 which states, "Person with related conditions" means individuals who have a severe, chronic disability that meets all of the following conditions:

- (a) It is attributable to
 - (1) Cerebral palsy or epilepsy or
 - (2) Any other condition, other than mental illness, found to be closely related to mental retardation because this condition results in impairment of general intellectual functioning or adaptive behavior similar to that of mentally retarded persons, and requires treatment or services similar to those required for these persons.
- (b) It is manifested before the person reaches age 22
- (c) It is likely to continue indefinitely
- (d) It results in substantial functional limitations in three or more of the following areas of major like activity: Self-care; Understanding and use of language; learning; mobility; self-direction; or capacity for independent living.

STATE DEFINITION OF DEVELOPMENTAL DISABILITY: "Developmental disability' means a disability attributable to brain injury, cerebral palsy, epilepsy, autism, Prader-Willi syndrome, mental retardation, or another neurological condition closely related to mental retardation or requiring treatment similar to that required for mental retardation, which has continued or can be expected to continue indefinitely and constitutes a substantial handicap to the afflicted individual. 'Developmental disability' does not include senility which is primarily caused by the process of aging or the infirmities of aging" (WI Statutes 51.01(5)(a)).

DEMENTIA means Alzheimer's' disease and other related irreversible dementias involving degenerative disease of the central nervous system characterized especially by premature senile mental deterioration and also includes any other irreversible deterioration of intellectual faculties with concomitant emotional disturbance resulting from organic brain disorder (WI Statues 46.87(1)(a)).
