

#### **EXCLUSION CRITERIA**

Most childhood illnesses do not require that a child be excluded. Three criteria a caregiver/teacher can use to make the determination are:

- 1) If the illness prevents a child from participating comfortably in activities.
- 2) If the illness results in the need for care that is greater than staff can provide without compromising the health and safety of other children.
- 3) If the illness poses a risk of spreading to others.

For disease details

### **HOW TO ORDER**

Contact your Local Health Department or a DHS Regional Office:

dhs.wisconsin.gov/localhealth

Ask for publication number P-44397

# Wisconsin Childhood Communicable Diseases

WALL CHART FOR CHILDHOOD DISEASES IN GROUP SETTINGS

Developed and produced by the Bureau of Communicable Diseases and Emergency Response Division of Public Health

State of Wisconsin, Department of Health Services

P-00735 (07/2014)

#### Wisconsin Childhood Communicable Diseases Wall Chart

This new wall chart covers the most common childhood infectious diseases in Wisconsin, It is meant for use by

those responsible for the care of children in group settings, such as schools, day care centers, camps, and clubs.

The diseases are arranged by category and color coded for easy viewing. Each disease is listed by its name and causative agent. Other useful information includes how the infection is spread, incubation period,

> signs and symptoms, and period of infectiousness.

New to the chart is guidance for when a child (or adult staff members) with an infectious disease should be excluded from the group setting. For each

category of infection, onsite control and prevention measures are provided.

For more information, or for a nurse consultation regarding a child's illness, contact your local health department.

#### Illness categories are:

- Eye, Ear, Nose, and **Throat**
- Respiratory
- Gastrointestinal
- Skin and Rash
- Meningitis
- Sexually Transmitted Diseases

Onsite control and prevention measures, found in the far right column, address general precautions for the disease category and include specific guidelines for individual infections.

## WISCONSIN CHILDHOOD COMMUNICABLE DISEASES

	Disease Norms		Incubation Period		Times Paried When Parace is		
	(GIAS, encedite report)	Spread by	With the expense to	Signs and Synaptons	Codejeu	Critierte for Enchaton from School or Grou
