

Appendix C: System Interfaces and Imports/Exports

System Interfaces

General Information

System interfaces are defined as direct connections between systems for the purpose of real-time data exchange. Interfaces marked as “Current” are required at implementation and specifications already exist. Interfaces marked as “Future” are required by either Federal law or business requirements to be implemented in the future. For each interface, please specify whether the interface currently exists in the System in a production environment, or whether it would be a custom-built interface.

Business Area	System	Description	Specifications	Current or Future?
Customer Service -Accounting	Third-party vital record orders and verification systems	Interface to third-party systems that process online orders and verifications for Vital Records.	To be determined based on which vendor(s) are selected.	Future
Customer Service -Accounting	Check Clearing Service	Interface with a check clearing service to process checks for Vital Records Offices	To be determined based on which vendor(s) are selected.	Future
Birth, Death, Fetal Death	STEVE	Interface with STEVE (State and Territorial Exchange of Vital Events) which is an electronic system for the secure exchange of VR data within the authorized VR community of US states and territories.	To be determined. Information is available at http://www.naphsis.org/NAPHSIS/files/ccLibraryFiles/Filename/000000000491/STEVE%20RF1v6.pdf	Future
Death	Online Verification of Social Security Number (OVS) through e-Vital Systems	Through online verification of Social Security Number (SSN), a decedent's SSN reported through electronic death registration will be transmitted to the Social Security Administration (SSA) to be electronically verified. Funeral directors will receive notification through the EDR system about the accuracy of the SSN as compared with the decedent's name, sex, and date of birth reported on the death record.	To be determined.	Future
Birth, Death	EVVE hub	Interface with EVVE (Electronic Verification of Vital Events) which can query a non-production database of Wisconsin's birth and death records in compliance with national guidelines.	To be determined. Information is available at: http://www.naphsis.org/projects/index.asp?bid=403	Future

Imports and Exports

The following imports and exports must be provided in the cost of the System, either as part of the standard package or as custom-developed processes.

Business Area	Sender	Recipient	Description	Specifications	Frequency
Death	SuperMICAR	NCHS	SuperMICAR allows data entry personnel to type in exactly what appears on the death certificate. It then processes the data, dividing terms, replacing words with synonyms, dropping unnecessary words, and arranging words in proper order to be found in NCHS' MICAR dictionary. The result is a file that can be processed through MICAR software to produce ACME input files, which then code the cause-of-death information in the death record.	http://www.cdc.gov/nchs/about/major/dvs/medsof.htm	Daily
Death	SVRO	SSA	Transitional until OVS completed. As soon as funeral director completes the fact of death portion of the record, a nightly upload with SSA to provide verification of a death and to find a match for SS#.	(Future)	As needed.
Death	SVRO	WIR	Export of deaths of children under 12.	(Attached)	Bi-Weekly
Death	SVRO	Case Point	Export of data from violent deaths.	(Attached)	Monthly
Death	SVRO	State Elections Board	Export of death data to State elections board.	(Attached)	Monthly
Death	SVRO	ETF	Export of deaths filed during a month.	(Attached)	Monthly
Death	SVRO	DWD – Unemployment Comp.	Export of deaths filed during a month.	(Attached)	Monthly
Death	SVRO	DMV	Export of deaths filed during a month.	(Attached)	Monthly
Death	SVRO	Milwaukee Metro	Export of pertinent deaths filed during a month.	(Attached)	Monthly
Death	SVRO	NCHS	Export of all current deaths and updates sent to NCHS.	http://www.cdc.gov/nchs/about/major/dvs/medsof.htm	Bi-Weekly
Death	SVRO	Dept. of Revenue	Export of deaths filed during a month.	(Attached)	Monthly
Death	SVRO	DOT/State Lab of Hygiene	Export of deaths filed during a month.	(Attached)	Monthly
Death Fetal Death	SVRO	Milwaukee City Health Dept.	Export of Milwaukee City Health Dept. infant and fetal death data.	(Attached)	Monthly
Fetal Death	SVRO	NCHS	Export of all current fetal deaths and updates sent to NCHS.	http://www.cdc.gov/nchs/about/major/dvs/medsof.htm	Monthly

Business Area	Sender	Recipient	Description	Specifications	Frequency
Birth	SVRO	SPHERE	Export of birth data to SPHERE.	(Attached)	Nightly
Birth	SVRO	WIR	Export of new births and amendments to WIR.	(Attached)	Weekly
Birth	DWD	SVRO	Import of paternity data from DWD.	(Attached)	Weekly
Birth	SVRO	DWD	Export of rejected data of paternity data sent back to DWD.	(Attached)	Weekly
Birth	SVRO	DWD	Export of KIDS HSS-81 (No father named once child is age of 6 months) file sent to DWD.	(Attached)	Monthly
Birth	ISBirth	PRAMS	Export of file containing resident birth records where the child is 2 – 6 months in age excluding adoption, surrogate, Act 2, foundling, multiple births with plurality of 4 or more, and records where mother's last name is missing.	(Attached)	Monthly
Birth	Peridata	SVRO	Import of birth data from birthing hospitals.	http://www.perinatalweb.org/content/view/19/76/	Nightly
Birth	SVRO	NCHS	Export of all current births and updates sent to NCHS.	http://www.cdc.gov/nchs/about/major/dvs/medsof.htm	Weekly
Birth	SVRO	SSA	Export of birth info to SSA (EAB) for an enumeration at birth and for sending updates from birth record amendments, as requested by parents	(Attached)	Weekly
Divorce	CCAP	SVRO	Import of divorce data from CCAP	To be determined.	Future
