2. Please note the rewrite of the RFP requirement bullets 6.8.15.2 and 6.8.15.4 as provided below:

6.8.15.2: System to link to a delayed registration record any existing partially completed record (not registered) for a specific vital event and/or any supporting document already in the system that relates to the delayed event. (An example of a partially completed record would be an

incomplete birth record where the parental information was not provided and this partially completed record was held in the system for over 365 days from the date of birth.)

6.8.15.4: Scanning of supporting paper documentation and attaching those scanned documents to the delayed registration record.

**Please include a signed copy of this amendment with your proposal/response.**
