

1 INTRODUCTION/OVERVIEW
1.3 Using this Manual

Effective: 06/1/96
Revised: 10/1/99

This WIC Operations Manual has been prepared for local WIC projects with the policies and procedures necessary to conduct the local program. Federal regulations are translated into state policies and procedures along with guidance for local program operations. Information from the former Nutrition Screening and Assessment Manual is included.

Finding Information

The Manual is divided into major program areas for convenience in referencing program topics and for training program staff. There is a table of contents at the beginning of the manual and an individual table of contents at the beginning of each chapter. The index provides easier access to program topics.

Questions regarding any policy and procedure in this Manual should be referred to the Regional Office Nutrition Consultant or WIC Program staff in either the WIC Unit or Vendor Unit as listed in the Project Directory. Contact State WIC Office at:

Wisconsin WIC Program
Division of Public Health
