

State of the Workforce Survey— Aging and Physical Disabilities

SEPTEMBER 15–NOVEMBER 30, 2024

The Wisconsin Department of Health Services is surveying agencies that provide long-term care for adults who are aging or have physical disabilities. The results will help DHS learn how to improve the quality and stability of the workforce in organizations like yours.

You're Invited to Participate

If your agency completes the survey, your data will be included in the final 2023 report released by National Core Indicators-ADvancing States. You'll be able to see how the workforce statistics you submitted compare to data from Wisconsin and other states, plus overall survey averages.

- ▶ Services and wages
- ▶ Turnover
- ▶ Demographics
- ▶ Vacancy rates
- ▶ Benefits
- ▶ Recruitment

NEXT STEPS

Learn More

See our informational presentation for details about the survey, agency incentive, and timeframe: dhs.wi.gov/arpa/nci-ad-workforce-survey-presentation.pdf.

Take the Survey

Your agency will receive an email in September with a unique link to the survey. Make sure you complete all entries by November 30, 2024, to be included in the survey results.

About

National Core Indicators-ADvancing States is a voluntary effort by public aging and physical disabilities agencies to measure and track their performance. Learn more and view state of the workforce surveys from past years at nci-ad.org.
