The Birth to 3 Program Works With and for Families

The Individualized Family Service Plan Team
Once the child is found eligible for the Birth to 3 Program, a team (including you) works together to decide which services best fit your family's goals and outcomes. This Individualized Family Service Plan (IFSP) team includes, but is not limited to:

- You, the parent(s) or caregiver(s)
- Other family members as requested
- An advocate or friend as requested
- The service coordinator
- At least one professional who evaluated the child
- Service providers

The Individualized Family Service Plan
Together, the team creates the IFSP. Your family's routine, values, culture, and priorities are used to guide the IFSP. It includes goals and outcomes important to your family and the strategies, resources, supports, and services that are needed to reach them.

Wisconsin Birth to 3 Program
A good start in the first 1,000 days

The Wisconsin Birth to 3 Program serves families with children under the age of 3 years who have delays or disabilities.

Once a child is found eligible, a team of professional service providers partners with your family to support growth and learning. Family culture, beliefs, and individual needs help shape how services are delivered.

The Wisconsin Birth to 3 Program is an early intervention special education program that supports the growth and development of children under the age of 3 who have delays or disabilities. "Early intervention" is the term used to describe services and supports available to babies and young children with developmental delays and disabilities and their families. In Wisconsin, early intervention is known as the Birth to 3 Program.

The Birth to 3 Program values that a child's first and most important relationships are with the family. Together with your family, the program supports the child's development and your family's knowledge, skills, and abilities as you interact with and raise the child. Your family's culture, beliefs, and individual needs help shape how services are delivered.

Once found eligible, supports and services are provided by a team of professionals. They are meant to help boost your ability and confidence to support the growth and development of the child.
