Wisconsin Heart Health Alliance

The Power of Collaboration

February 24, 2025 10–11 a.m.

Please introduce yourself in the chat: Name and organization

Poll: What sector are you in?

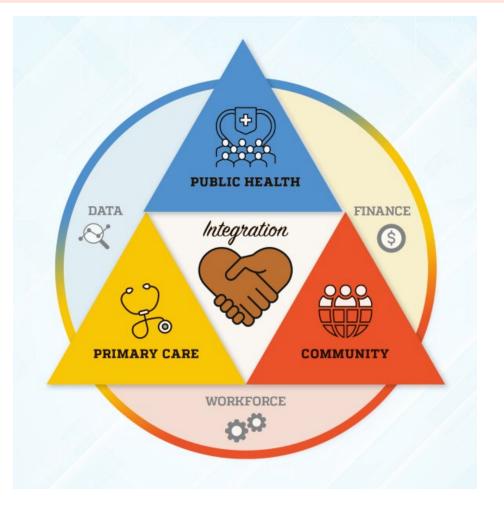

- Background on Community Clinical Linkages
- Overview of Wisconsin heart health learning collaboratives
- Lessons from the field:
 - Community Pharmacy Heart Health Triads
 - Brown County Heart Health Collaborative
 - Milwaukee Heart Health Learning Collaborative
- New grant funding opportunity!
- Closing and next steps

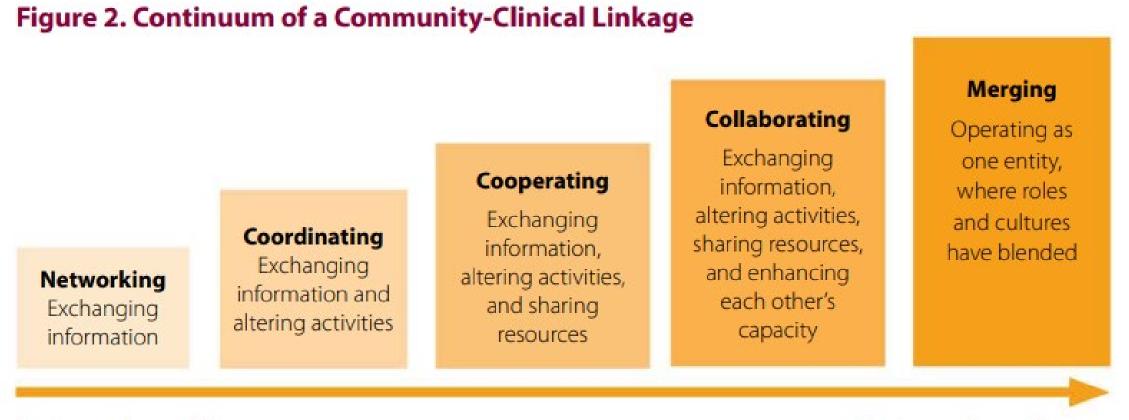

Why Collaborate?

- Break down silos
- Leverage staff capacity and funding
- More holistic care
- Broader impact
- No wrong door

Continuum of Community-Clinical Linkage

Least complex and intense

Most complex and intense

Adapted from Himmelman AT. Collaboration for a Change: Definitions, Decision-Making Models, Roles, and Collaboration Process Guide.

Centers for Disease Control and Prevention. Community-Clinical Linkages for the Prevention and Control of Chronic Diseases: A Practitioner's Guide. Atlanta, GA: Centers 5 for Disease Control and Prevention, U.S. Department of Health and Human Services; 2016.

Five Conditions of Collective Impact

It establishes shared measurement

It starts with a common agenda

It fosters mutually reinforcing activities

It encourages continuous communications

And it has a strong backbone

Improving Heart Health Through Community-Clinical Linkages

Applicant will lead an interdisciplinary heart health learning collaborative (HHLC) to bring together community members alongside clinicians and health system representatives, community-based organizations, payors, CHWs, and other interested parties to facilitate communication and exchange of ideas to inform data-driven healthcare practice improvements, link community and clinical resources, and address community-identified nonmedical needs to reduce hypertension and high cholesterol.

Key objectives

- Engage key partners to form HHLC
- Develop a shared aim statement
- Support health care partners in utilizing EHR data to inform projects to reduce heart health disparities
- Implement and monitor evidence-based strategies
- Report and evaluate progress

Funding amount

- \$100,000 per year to coordinate HHLC
- \$50,000 in additional funding for subcontracts for HHLC projects

Applicants must have the following qualifications:

- Sufficient staff and capacity to coordinate a multidisciplinary learning collaborative
- History of collaborating with multi-sector partners
- Ability to identify and regularly convene partners
- Committed partnership with at least one clinical partner
- Experience in collecting quantitative and qualitative data

Important dates	
February 24, 2025	Grant funding opportunity released
April 7, 2025	Application materials due by 11:59 p.m.
April 28, 2025	Notification of awards (estimated)
June 30, 2025–June 29, 2026	Period of performance with option for additional budget periods

Additional Grant Funding Opportunities

Diabetes

- Implementing and Sustaining a CDC-recognized Family Healthy Weight Program (FHWP)
- Increasing Access to and Participation in Complementary Diabetes Support Program
- Improving Access to Healthy Food in Communities with High Rates of Diabetes

Additional Grant Funding Opportunities

Nutrition and Physical Activity

- Advancing Breastfeeding Continuity of Care for Communities Most at Risk of Not Breastfeeding
- Advancing Produce Prescription Programs in Communities with High Rates of Nutrition Insecurity
