PURPOSE

This memo provides final funding notice of the base Income Maintenance Administrative Allocation (IMAA) for Income Maintenance (IM) Programs for the period January 1, 2022 through December 31, 2022 (Calendar Year [CY 2022]), for Consortia; and October 1, 2021 through September 30, 2022 (Federal Fiscal Year [FFY 22]), for the tribal agencies.

BACKGROUND

The IMAA includes funding for the processing of the applications, reviews, changes and other tasks related to eligibility determination of the FoodShare (FS) Program, Medicaid (MA) and BadgerCare Programs, FoodShare Employment and Training (FSET) and Caretaker Supplement Program.

The state General Purpose Revenue (GPR) funding is specified and controlled under the Contract. Matching federal funding to this GPR for IM related programs is included in the IMAA and is sum sufficient. Contract overspending, using local funding, is allowable for appropriate IM activities. The Department will seek to obtain federal matching funds for contract overspending for IM related expenditures, and will make those funds related to local spending available to Consortia. Estate Recovery Program Incentive funding may supplement the IMAA for some or all counties and tribal agencies throughout the contract period.

THE IM ADMINISTRATIVE ALLOCATION

The base allocation amount for CY/FFY 2022 is \$37,668,804 (All Funds).

Consortium Name	CY22 Base Contract Amount	Tribe Name	FFY22 Base Contract Amount

RANDOM MOMENT SAMPLING (RMS) SHORTFALL

Random Moment Sampling is a sampling methodology to determine what Consortia workers are doing at a set point in time. The information obtained from this process is used in claiming the federal matching funds to the state funding provided. RMS reconciliation is usually completed within six (6) months of the close of the calendar year.

For CY 2022, Consortia and the Department will share proportionally in RMS related shortfalls and Federal match earned above contract based on the ratio of funding between county/consortia local levy amounts and state GPR amounts contracted as the Income Maintenance base contract funding allocation for that year. The Department will develop and implement a reasonable methodology for reconciling any shortfalls after consulting with the Consortia on timing and methodology. The Department and Consortia will work together to determine a process and methodology for handling the Consortia share of Federal match earned above contract.

The allocations shown are the base allocations for CY/FFY 2022 based on the methodologies described above and the funding identified for CY 2022. Final allocations may be changed depending upon availability of funding, state or federal legislation, or further assessment of the impact of the RMS on the amount of federal funding available for IM programs.
