POLICY UPDATES
68.3.2 Level 1
Documentation of
Citizenship and
Identity

1	Individual is a Continuously Eligible Newborn (CEN)	NB	NB is an obsolete code used when a CEN was added to a case. Citizenship and identity verification is no longer required for CEN individuals. This code used to be automatically removed from the fields at review or intake so that a valid code could be entered at that time. Replace any existing NB code with the MB code. Use the NB code when a CEN is added to a case. Citizenship and identity verification is no longer required for CEN individuals. This code was required to be removed from the fields at review or intake, but has been fixed to remain in CARES once entered.
