

   **FoodShare Override Screen Move to
CWW From Mainframe**
   **IMAC Presentation**
   *August 2022*

Background

- Currently, when an IM worker overrides the FoodShare allotment amount on the Assistance Group Eligibility Results Override screen (AGOE) in the mainframe, authorized IM workers can go to the FoodShare Budget Override screen (AGFB) to adjust the FoodShare budget accordingly, and then confirm eligibility in CWW.
- In October 2022, the AGFB screen functionality will be moved to CWW as the new FoodShare Budget Override page. The same worker process will apply, and the same persons authorized to change the AGFB screen can override the budget in the CWW page.
- This is the latest in a series of enhancements to move mainframe functionality to CWW and is related to the effort to update BRITS.

New CWW Page

- The new FoodShare Budget Override page can be accessed from the Navigation Menu.
- When the page is displayed, it features the latest FoodShare sequence.
- And, if the AGOE screen in the mainframe was not updated, the page is read-only.
