

All potential cases of invasive *H. influenzae* must be phoned to local and state health officials immediately.

General number for CDES staff during weekdays: **(608) 267-9003**

Emergency number for on-call CDES staff after hours and on weekends: **(608) 258-0099**

(Emergency number is for local health departments and clinical practitioners only, please do not distribute to the public.)

Please note: This flowchart is intended for public health investigation only and should not be used for clinical diagnosis.

Refer to the Invasive *Haemophilus influenzae* Management Protocol for important details.

Because of the risk to children and delays with serotype confirmation, all cases of invasive *H. influenzae* should be treated assuming the case has serotype b (Hib).
