Number	Indicator	Response
BX.1	**Payment risks between the state and plans** Describe service-specific or other focused PI activities that the state conducted during the past year in this managed care program. Examples include analyses focused on use of long-term services and supports (LTSS) or prescription drugs or activities that focused on specific payment issues to identify, address, and prevent fraud, waste or abuse. Consider data analytics, reviews of under/overutilization, and other activities.	The plan reports issues of fraud, waste, and abuse to the state via quarterly program integrity reports. The state monitors the quarterly reports and partners with the plan to send referrals to the MFCU. The state also analyzes the quarterly program integrity reports for trends and concerns regarding fraud, waste, and abuse and follows up as appropriate. The state has the authority to conduct network provider audits of the plan. However, none were completed this fiscal year for this plan due to the minimal impact and exposure in Wisconsin Medicaid for Children Come First. However, the state did focused reviews of higher risk providers in other networks. Those audits included reviewing encounters submitted after a member's date of death, orthotics, and COVID lab testing. In addition, the state conducts annual reviews of capitation payments paid after date of death, the state reviews capitation payments paid for stillborns, and the state reviews enhanced kick payments paid to HMOs for birth events.
BX.2	**Contract standard for overpayments** Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one.	Allow plans to retain overpayments
BX.3	**Location of contract provision stating overpayment standard** Describe where the overpayment standard in the previous indicator is located in plan contracts, as required by 42 CFR 438.608(d)(1)(i).	Article XII, Section J. 5. a.
BX.4	**Description of overpayment contract standard** Briefly describe the overpayment standard (for example, details on whether the state allows plans to retain overpayments, requires the	Pursuant to 42 CFR § 438.608(d), the County PIHP must attempt to recover all overpayments made to network providers, including those overpayments attributed to fraud, waste, and abuse, identified by the County PIHP. The County PIHP recovers the payments and retains

	plans to return overpayments, or administers a hybrid system) selected in indicator B.X.2.	the funds for all overpayments identified by the County PIHP, provider or DHS OIG. Any overpayment identified by DHS OIG would be an estimated overpayment based on the max fee schedules. The County PIHPs would be responsible for determining the actual overpayment amount.
BX.5	**State overpayment reporting monitoring** Describe how the state monitors plan performance in reporting overpayments to the state, e.g. does the state track compliance with this requirement and/or timeliness of reporting? The regulations at 438.604(a)(7), 608(a)(2) and 608(a)(3) require plan reporting to the state on various overpayment pieces (whether annually or promptly). This indicator is asking the state how it monitors that reporting.	The state collects all overpayment data on the Overpayment Recovery tab of the quarterly program integrity report. The report includes the date the overpayment was identified and the date the overpayment recovery was complete. The state provides technical assistance after each quarterly program integrity report submission which includes a review of timeliness of recoveries.
BX.6	**Changes in beneficiary circumstances** Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate payments for enrollees experiencing a change in status (e.g., incarcerated, deceased, switching plans).	The State requires the plan to monitor the enrollment rosters that are available through a weekly electronic file transfer that will provide ongoing information about member status. The plan will then report any overpayments that require recoupment due to change in members' circumstances.
BX.7a	**Changes in provider circumstances: Monitoring plans** Does the state monitor whether plans report provider “for cause” terminations in a timely manner under 42 CFR 438.608(a)(4)? Select one.	Yes
BX.7b	**Changes in provider circumstances: Metrics** Does the state use a metric or indicator to assess plan reporting performance? Select one.	Yes
BX.7c	**Changes in provider circumstances: Describe metric** Describe the metric or indicator that the state uses.	The state collects all termination data on the Termed Sanctioned or Suspended tab of the quarterly program integrity report. The report includes the date of the termination by the plan and the date the state was notified. The state provides technical assistance after each

		quarterly program integrity report submission which includes a review of timeliness of termination notifications.
BX.8a	**Federal database checks: Excluded person or entities** During the state's federal database checks, did the state find any person or entity excluded? Select one. Consistent with the requirements at 42 CFR 455.436 and 438.602, the State must confirm the identity and determine the exclusion status of the MCO, PIHP, PAHP, PCCM or PCCM entity, any subcontractor, as well as any person with an ownership or control interest, or who is an agent or managing employee of the MCO, PIHP, PAHP, PCCM or PCCM entity through routine checks of Federal databases.	No
BX.9a	**Website posting of 5 percent or more ownership control** Does the state post on its website the names of individuals and entities with 5% or more ownership or control interest in MCOs, PIHPs, PAHPs, PCCMs and PCCM entities and subcontractors? Refer to §455.104 and required by 42 CFR 438.602(g)(3).	No
BX.10	**Periodic audits** If the state conducted any audits during the contract year to determine the accuracy, truthfulness, and completeness of the encounter and financial data submitted by the plans, what is the link(s) to the audit results? Refer to 42 CFR 438.602(e).	N/A

Topic V. Availability, Accessibility and Network Adequacy

Access Measures

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

Appeals Overview

Find in the Excel Workbook
D1_Plan_Set

Number	Indicator	Response
D1IV.1	**Appeals resolved (at the plan level)** Enter the total number of appeals resolved during the reporting year. An appeal is "resolved" at the plan level when the plan has issued a decision, regardless of whether the decision was wholly or partially favorable or adverse to the beneficiary, and regardless of whether the beneficiary (or the beneficiary's representative) chooses to file a request for a State Fair Hearing or External Medical Review.	**Wraparound Milwaukee** 0

D1IV.3	**Appeals filed on behalf of LTSS users** Enter the total number of appeals filed during the reporting year by or on behalf of LTSS users. Enter “N/A” if not applicable. D1IV.4	**Number of critical incidents filed during the reporting period by (or on behalf of) an LTSS user who previously filed an appeal** For managed care plans that cover LTSS, enter the number of critical incidents filed within	**Wraparound Milwaukee** N/A

	the reporting period by (or on behalf of) LTSS users who previously filed appeals in the reporting year. If the managed care plan does not cover LTSS, enter “N/A”. Also, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, enter “N/A”. The appeal and critical incident do not have to have been "related" to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the appeal need to have been filed in relation to delivery of LTSS — they may have been filed for any reason, related to any service received (or desired) by an LTSS user. To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed an appeal during the reporting year, and whether the filing of the appeal preceded the filing of the critical incident.	
D1IV.5a	**Standard appeals for which timely resolution was provided** Enter the total number of standard appeals for which timely resolution was provided by plan during the reporting period. D1IV.10	**Grievances resolved** Enter the total number of grievances resolved by the plan during the reporting year. A grievance is "resolved" when it has reached completion and been closed by the plan.	**Wraparound Milwaukee** 2
D1IV.11	**Active grievances** Enter the total number of grievances still pending or in process (not yet resolved) as of the end of the reporting year.	**Wraparound Milwaukee** 0
D1IV.12	**Grievances filed on behalf of LTSS users** Enter the total number of grievances filed during the reporting year by or on behalf of LTSS users. An LTSS user is an enrollee who received at least one LTSS service at any point during the reporting year (regardless of whether the enrollee was actively receiving LTSS at the time that the grievance was filed). If this does not apply, enter N/A.	**Wraparound Milwaukee** N/A
D1IV.13	**Number of critical incidents filed during the reporting period by (or on behalf of) an LTSS user who previously filed a grievance** For managed care plans that cover LTSS, enter the number of critical incidents filed within the reporting period by (or on behalf of) LTSS users who previously filed grievances in the reporting year. The grievance and critical incident	**Wraparound Milwaukee** N/A

	do not have to have been "related" to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the grievance need to have been filed in relation to delivery of LTSS - they may have been filed for any reason, related to any service received (or desired) by an LTSS user. If the managed care plan does not cover LTSS, the state should enter "N/A" in this field. Additionally, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, the state can enter "N/A" in this field. To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed a grievance during the reporting year, and whether the filing of the grievance preceded the filing of the critical incident.	
D1IV.14	**Number of grievances for which timely resolution was provided** Enter the number of grievances for which timely resolution was provided by plan during the reporting period.
