Sandata Mobile Connect (Muunganisho wa Kifaa cha Mkononi) (SMC) ni nini

- Programu ya Sandata Mobile Connect (Muunganisho wa Kifaa cha Mkononi), pia inajulikana kama SMC ni programu ambayo inaendesha kwenye kifaa cha kielektroni kama vile simu janja au tableti. Hii inamaanisha wafanyakazi wanaweza kupakua programu ya simu kwenye simu janja yao au tableti na kuitumia kuandika maelezo kuhusu huduma walizotoa wakati wa ziara. Ikiwa mfanyakazi hana kifaa cha mkononi, anaweza kutumia njia ya mbinu ya Fixed Visit Verification (Uthibitisho wa Ziara) (FVV).

KUMBUKA: Huenda FVV isitumike kwenye progamu yako.

- **Mteja** = Mtu anayepokea huduma.
