*Based on annual populations estimates provided by Wisconsin Department of Administration

Counties or Health Departments with no people with TB for all years shown have been removed

Statewide case rate: 69 people with TB/5,989,256 population X 100,000
= **1.15 people with TB per 100,000 population**

Wisconsin Tuberculosis Case Rates by Public Health Region and by County 2015 – 2024

Case rates by public health region:

Southeastern Region:
