

# Not much gets done in a meeting of one.

Don't let the flu slow you or your coworkers down. **GET THE FLU VACCINE.**

- By protecting yourself, you are protecting those around you.
- If you and your family get the flu shot, you are less likely to have to miss work to care for a loved one.

For information on where you can get the flu vaccine, visit [www.dhs.wisconsin.gov/influenza](http://www.dhs.wisconsin.gov/influenza).
