To find an address record for an elevated blood lead case, you will use the Environmental tab.

**Step 1:** Select the **Environmental** tab. This opens the **Find Address** screen.

| Healthy Housing   | City:                 | State:        | Zip:      | County:                             |       |
| Address Attachments                                     |                       | ~             |           | ~                                   |       |
|   | Find Clear            |               |           |                                     |       |

Step 2: There are two ways to search for an address: (1) Enter part or all of the street address, city, or zip code in the appropriate fields, or (2) Enter the Address ID if you have it. NOTE: The first time you look up an address, you may want to record the Address ID number. This will make future searches for that address faster.

Next, click on the appropriate **Jurisdiction within which to search**. Finally, click the **Find** button located at the bottom of the screen to complete the search.
