Instructions

This document is provided to assist with the preparation of required reports for the pre-review questionnaire (PRQ) for site visits and to review hospital data prior to site visit. The reports listed below are to assist in answering the PRQ, but hospitals may have different methods of tracking data outside of ImageTrend, so choose the best method for the hospital. Instructions are included below to aid in preparing the reports. If there are any questions, reach out to the Wisconsin [DHS Trauma team](#).

To run the reports, the user requires access to the [Wisconsin ImageTrend Patient Registry website](#). Contact the Wisconsin [DHS Trauma team](#) if you need access.

Important: Do not save reports! If you would like to save your changes, please use the save as function to create your report in your “My Reports.” Saving them will change the reports for others who depend on them.

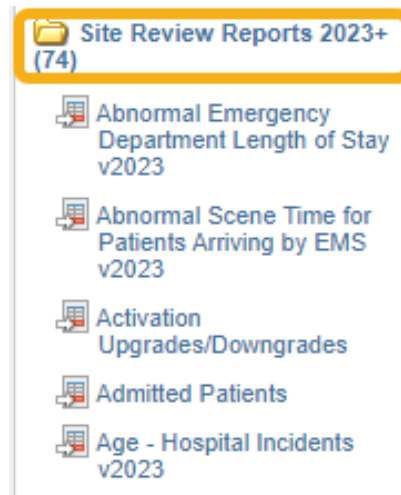

Finding Reports

1. Log in and select the "Report Writer" tab.

2. See the Shared Reports section on the left side of the screen. Select the "Site Review Reports 2023+" folder on the left side of the screen. All necessary reports are within this folder.

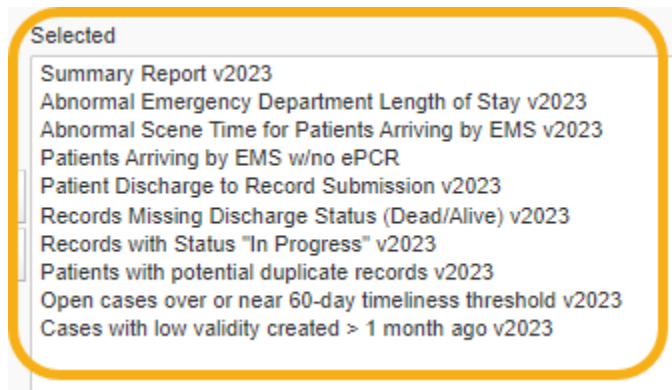

Note: All Shared Reports can be found on the left side of the screen.

Data Feedback Reports v2023

These reports are designed to find multiple types of errors in data. Review any cases that have errors.

1. Select "Data Feedback Reports v2023" in the "Site Review Reports 2023+" folder. Reports in the right column are pre-populated (see image below).
 - Summary report v2023
 - Abnormal emergency department length of stay v2023
 - Abnormal scene time for patients arriving by EMS v2023
 - Patients arriving by EMS w/no ePCR v2023
 - Patient discharge to record submission v2023
 - Records missing discharge status (dead/alive) v2023
 - Records with status "in progress" v2023
 - Patients with potential duplicate records v2023
 - Open cases over or near 60-day timeliness threshold v2023
 - Cases with low validity created > 1 month ago v2023

2. Select "Generate Report."
3. Use the drop-down menus to complete the three filters.
 - **Facility Name:** This is the facility for which you need data. Staff members can have access to more than one facility, so choose the appropriate facility.
 - **ED-Hospital Admission Date (TR18.55):** This is the timeframe of the data needed for PRQ. Either type in dates or use calendar to select dates.
 - **Incident Form Title:** The "Wisconsin Trauma Activation Only Form" can be excluded by selecting it from the drop-down menu, otherwise leave blank.

 A screenshot of the "Filter Your Results" section of a web application. It contains three filter rows:

- Facility Name:** A dropdown menu set to "is equal to" with a "Select One" button.
- ED-Hospital Admission Date (TR18.55):** A dropdown menu set to "is between" with two date selection fields (each with a calendar icon) separated by the word "and".
- Incident Form Title:** A dropdown menu set to "is not equal to" with a "Select One" button.

 Below the filters, there is a note: "Set the 'Wisconsin Trauma Activation Only Form' if you'd like to exclude any patients captured on this form at your facility."

4. Select "Generate Report."

Demographics Report – Hospital v2023

These reports provide demographic data for the site review.

1. Select "Demographics Report – Hospital v2023" in the "Site Review Reports 2023+" folder. Reports in the right column are pre-populated (see image below).
 - All patients – hospital incidents v2023
 - Gender Identity – hospital incidents v2023
 - Gender – hospital incidents v2023
 - Race – hospital incidents v2023
 - Type of admission – hospital incidents v2023
 - Discharge status – hospital incidents v2023
 - Place of injury – hospital incidents v2023
 - Cause of injury – hospital incidents v2023
 - Age – hospital incidents v2023
 - RTS on admission – hospital incidents v2023
 - Injury severity score – hospital incidents v2023

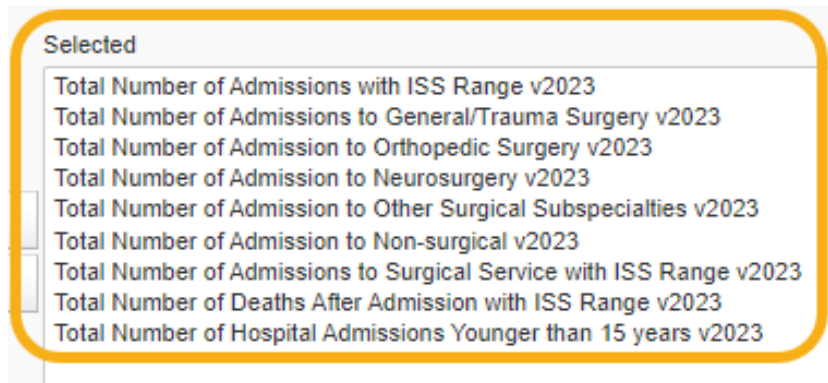

2. Select "Generate Report."
3. Use the drop-down menus to complete the three filters.
 - **Facility Name:** This is the facility for which you need data. Staff members may have access to more than one facility, so choose the appropriate facility.
 - **ED-Hospital Admission Date:** Enter the PRQ date ranges in the two boxes.
 - **Incident Form Title:** The "Wisconsin Trauma Activation Only Form" can be excluded by selecting it from the drop-down menu, otherwise leave blank.

4. Select "Generate Report."

PRQ Reports Group 1 v2023

These reports provide data to assist in completing the PRQ.

1. Select "PRQ Reports Group 1 v2023" in the "Site Review Reports 2023+" folder. Reports in the right column are pre-populated (see image below).
 - Total Number of Admissions with ISS range v2023
 - Total Number of Admissions to General/Trauma Surgery v2023
 - Total Number of Admissions to Orthopedic Surgery v2023
 - Total Number of Admissions to Neurosurgery v2023
 - Total Number of Admissions to Other Surgical Subspecialties v2023
 - Total Number of Admissions to Non-surgical v2023
 - Total Number of Admissions to Surgical Service with ISS Range v2023
 - Total Number of Deaths After Admission with ISS Range v2023
 - Total Number of Hospital Admissions Younger than 15 years v2023

2. Select "Generate Report."
3. Use the drop-down bars to complete the three filters.
 - **Facility Name:** This is the facility for which you need data. Staff members may have access to more than one facility, so ensure the appropriate facility is selected.
 - **ED-Hospital Admission Date:** Enter the PRQ date ranges in the two boxes.
 - **Incident Form Title:** The "Wisconsin Trauma Activation Only Form" can be excluded by selecting it from the drop-down menu, otherwise leave blank.

A screenshot of the "Filter Your Results" section of a web application. It contains three filter rows, each with a label, a dropdown menu for the comparison operator, and a dropdown menu for the value.

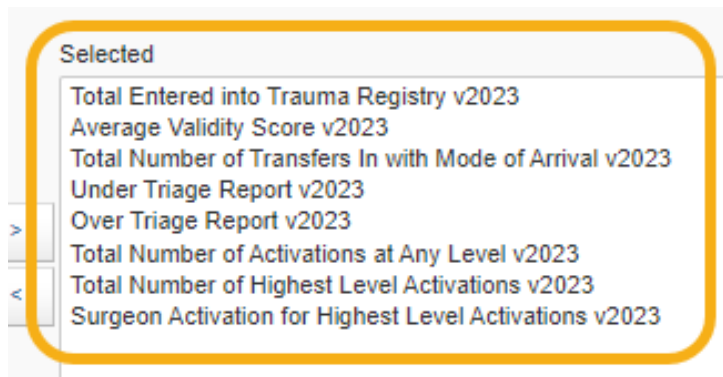

- Facility Name:** The operator dropdown is set to "is equal to". The value dropdown is set to "Select One".
- ED-Hospital Admission Date (TR18.55):** The operator dropdown is set to "is between". There are two date selection boxes (calendars) on either side of the word "and". Below the boxes is the text: "Specify the data collection date range that will be listed on your PRQ".
- Incident Form Title:** The operator dropdown is set to "is not equal to". The value dropdown is set to "Select One". Below this row is the text: "Select the 'Wisconsin Trauma Activation Only Form' if you'd like to exclude any patients captured on this form at your facility."

4. Select "Generate Report."

PRQ Reports Group 2 v2023

These reports provide data to assist in completing the PRQ.

1. Select "PRQ Reports Group 2 v2023" in the "Site Review Reports 2023+" folder. Reports in the right column are pre-populated (see image below).
 - Total Entered into Trauma Registry v2023
 - Average Validity Score v2023
 - Total Number of Transfers in with Mode of Arrival v2023
 - Under Triage Report v2023
 - Over Triage Report v2023
 - Total Number of Activations at Any Level v2023
 - Total Number of Highest Level Activations v2023

2. Select "Generate Report."
3. Use the drop-down menus to complete the three filters.
 - **Facility Name:** This is the facility for which you need data. Staff members can have access to more than one facility, so choose the appropriate facility.
 - **ED-Hospital Admission Date:** Enter the PRQ date ranges in the two boxes.
 - **Incident Form Title:** The "Wisconsin Trauma Activation Only Form" can be excluded by selecting it from the drop-down menu, otherwise leave blank.

 A screenshot of a "Filter Your Results" form. It contains three filter sections:

- Facility Name:** A dropdown menu set to "is equal to" with a "Select One" button.
- ED-Hospital Admission Date (TR18.55):** A dropdown menu set to "is between" followed by two date selection boxes (calendars) separated by the word "and". Below this is a note: "Specify the data collection date range that will be listed on your PRQ".
- Incident Form Title:** A dropdown menu set to "is not equal to" with a "Select One" button. Below this is a note: "Select the 'Wisconsin Trauma Activation Only Form' if you'd like to exclude any patients captured on this form at your facility."

 The entire form is enclosed in a rounded rectangle with an orange border.

4. Select "Generate Report."

PRQ Reports Group 3 v2023

These reports provides data to assist in completing the PRQ.

1. Select "PRQ Reports Group 3 v2023" in the "Site Review Reports 2023+" folder. Reports in the right column are pre-populated (see image below).
 - Total Number of Patients Discharged Alive From ED v2023
 - Total Number of Patients Discharged Deceased From ED v2023
 - Total Number of Transfers Out with Transport Mode v2023

2. Select "Generate Report."
3. Use the drop-down bars to complete the three filters.
 - **Facility Name:** This is the facility for which you need data. Staff members can have access to more than one facility, so choose the appropriate facility.
 - **ED-Hospital Admission Date:** Enter the PRQ date ranges in the two boxes.
 - **Incident Form Title:** The "Wisconsin Trauma Activation Only Form" can be excluded by selecting it from the drop-down menu, otherwise leave blank.

A screenshot of a 'Filter Your Results' section in a software application. The section is enclosed in a rounded rectangle with a thick orange border. It contains three filter criteria, each with a label, a dropdown menu for the operator, and a dropdown menu for the value.

1. 'Facility Name:' with the operator 'is equal to' and a value dropdown showing '• Select One •'.

2. 'ED-Hospital Admission Date (TR18.55):' with the operator 'is between' and two date range input boxes separated by 'and'. Below this is a small text instruction: 'Specify the data collection date range that will be listed on your PRQ'.

3. 'Incident Form Title:' with the operator 'is not equal to' and a value dropdown showing '• Select One •'. Below this is another small text instruction: 'Select the "Wisconsin Trauma Activation Only Form" if you'd like to exclude any patients captured on this form at your facility.'

4. Select "Generate Report."

Injuries by ICD-10 Mechanism Category v2023

This report provides the incident ICD-10 injury category and description and percent of total incidents during the specified time period.

1. Select "Injuries by ICD-10 Mechanism Category v2023" in the "Site Review Reports 2023+" folder.
2. Select the "Filters" tab.

3. Select "Facility Name contains ImageTrend" to open dimension filter box.

Additional Filters

PRQ Data Elements Report with Procedures v2023

This report provides data needed to complete the PRQ. This is to be exported as a CSV file. With the CSV file, the data can be reviewed to verify data and/or filtered to answer PRQ questions as an alternate to the individual and group reports. With the procedures, patients can be listed multiple times if they have multiple procedures. Please use appropriately.

5. Select "PRQ Mega Report without Procedures v2023" in the "Site Review Reports 2023+" folder.

The screenshot shows a report interface with a top navigation bar containing tabs: Columns, Display, Grouping, Sorting, Criteria, Additional Options, and Actions. A 'Generate Report' button is located on the right. Below the navigation bar, the report title 'Columns: PRQ Data Elements with Procedures v2023' is displayed.

6. Select "Generate Report."
7. Use the drop-down bars to complete the three filters.
 - **Facility Name:** This is the facility for which you need data. Staff members may have access to more than one facility, so ensure the appropriate facility is selected.
 - **ED-Hospital Admission Date:** This is the timeframe of the data needed for PRQ. You can either type in the dates or use the calendar to select dates.
 - **Incident Form Title:** The "Wisconsin Trauma Activation Only Form" can be excluded by selecting it from the drop-down menu, otherwise leave blank.

The screenshot shows the 'Filter Your Results' section with three filters:

- Facility Name:** is equal to [Select One]
- ED-Hospital Admission Date (TR18.55):** is between [] and []
- Incident Form Title:** is not equal to [Select One]

Below the filters, a note states: "Select the 'Wisconsin Trauma Activation Only Form' if you'd like to exclude any patients captured on this form at your facility."

8. Select "Generate Report."
