What to consider

Serving as a SHIP volunteer and program representative includes some responsibilities that you should consider to ensure this is the right fit for you:

- **Conflic of interest:** SHIP representatives cannot have any real or perceived conflicts of interest that would impede their ability to provide unbiased information and assistance. All potential SHIP volunteers are screened for conflicts of interest and subject to a national criminal background check.
- **Reporting:** SHIP team members must report their Medicare-related counseling sessions and outreach activities on the SHIP Tracking and Reporting System (STARS) website. This site is intuitive, and training is provided.
- **Confidentiality:** SHIP counselors must honor client privacy and confidentiality rules.

What is the State Health Insurance Assistance Program (SHIP)?

SHIP is a national program that offers one-on-one assistance, counseling, and education to Medicare beneficiaries, their families, and caregivers to help them make informed decisions about their care and benefits.

Navigating Medicare can be complicated, but SHIP can help by answering questions and providing personalized, unbiased guidance. SHIP is grant-funded; counselors don't sell anything and aren't affiliated with any private company or plan.
