Source: 2012 Family Health Survey, Office of Health Informatics, Division of Public Health, Wisconsin Department of Health Services.

Notes: Due to changes in sampling design, 2012 FHS data should not be combined with earlier years of data. Comparisons between 2012 FHS estimates and estimates from previous years of FHS data should be made with caution.

This table shows estimated percentages and numbers based on survey responses.

C.I. = Confidence Interval (specifies a range within which the true value probably lies). See Technical Notes.

A dash (--) indicates 0.5% or less, fewer than 1,000 people, and/or insufficient sample size to produce reliable estimates.
