

# THANK YOU FOR CARING.

Teens and young adults in Wisconsin are grateful to retailers like you who take care to follow the federal Tobacco 21 sales age law. When you verify IDs on tobacco and vape sales, you're helping protect the health of young people, and that means a lot. Thank you for sharing this important responsibility with your team members and customers. You are contributing to a better future for all of us. **Keep up the great work!**
