

**WISCONSIN DEPARTMENT OF HEALTH SERVICES
PROPOSED ORDER TO ADOPT PERMANENT RULES**

The Wisconsin Department of Health Services proposes an order to **amend** DHS 109.13 (2)(c) (title), 109.51 (5), 109.52 (8)(d) and (11)(b), 109.61 (2), 109.73, to **renumber and amend** DHS 109.03 (10), and **create** DHS 109.13 (2)(b) 3., (d) and (e) and 109.31 (3)(h), relating to SeniorCare prescription drugs.

RULE SUMMARY

Statute interpreted

Section 49.688 (1) (c) 2., (4), (6), (7), (10m) and (11), Stats.

Statutory authority

The department is authorized to promulgate the proposed rules based upon ss. 227.11(2) and 49.688 (4) and (7), Stats.

Explanation of agency authority

Section 227.11 (2), Stats., gives the department authority to “promulgate rules interpreting the provisions of any statute enforced or administered by the agency, if the agency considers it necessary to effectuate the purpose of the statute, but a rule is not valid if the rule exceeds the bounds of correct interpretation.” Section 227.11 (2) (b), Stats., provides authority “to prescribe forms and procedures in connection with any statute enforced or administered by it, if the agency considers it necessary to effectuate the purpose of the statute” Chapter DHS 109 was promulgated to implement the prescription drug benefits for the elderly called “SeniorCare” and interpreted the following statutes administered by the department:

- Section 49.688 (4), Stats., which provides that the department shall “devise and distribute a form for application for the program under sub. (2), shall determine eligibility for each 12-month benefit period of applicants and shall issue to eligible persons a prescription drug card for use in purchasing prescription drugs, as specified in sub. (5).
- Section 49.688 (6), Stats., which requires the department or any entity with which the department contracts to provide a drug manufacturer with documents for entering into a rebate agreement that is modeled on 42 USC 1396r-8. Paragraphs (a) and (b) provide additional requirements for rebate agreements.
- Section 49.688 (7), Stats., which requires the department to utilize a “schedule that is identical to that used by the department for payment of pharmacy provider claims under medical assistance, provide to pharmacies and pharmacists payments for prescription drugs sold by the pharmacies or pharmacists to persons eligible [for SeniorCare].” The subsection further provides that the department shall “devise and distribute a claim form for use by pharmacies and pharmacists,” and to limit payment to prescription drugs for which claims are submitted directly to the department.
- Section 49.688 (11), which requires the department to request a waiver of federal medicaid laws under 42 U.S.C s. 1315 (a) to permit the department to create a program to expand eligibility for prescription drugs for elderly persons, and to implement that program.

The following provision provide explicit authority for ch. DHS 109:

- Section 49.688 (7), which permits the department to apply to the SeniorCare program “the same utilization and cost control procedures that apply under rules promulgated by the department to medical assistance under subch. IV of ch. 49.”

The proposed rule interprets two new provisions in s. 49.688, Stats., which were added by 2019 Wis. Act 185. Section 49.688 (1) (c) 2., Stats., expanded the definition of “prescription drug” to include “a vaccination recommended for administration by the federal centers for disease control and prevention’s

advisory committee on immunization practices and approved for administration to adults by the department.” Section 49.688 (10m), Stats., requires the department to provide payments for vaccinations provided to eligible SeniorCare participants under a schedule that is “identical to that used by the department for payments of claims under the Medical Assistance programs” and at a rate of payment for the identical vaccination under and the dispensing fee under s. 49.46 (2) (b). Subsection (10m) also permits the department to to the SeniorCare program “the same utilization and cost control procedures that apply under rules promulgated by the department to medical assistance under subch. IV of ch. 49.”

Related statute or rule

The SeniorCare program is authorized through a s. 1135(a) of the Social Security Act waiver approved by the federal Department of Health and Human Services. As a result, otherwise relevant federal statutes and rules do not apply to the program. Federal requirements are set forth in the SeniorCare program s. 1135(a) waiver approval document.

The following state statutes or rules directly relate to the SeniorCare program:
Section 49.688, Stats.

Plain language analysis

In 2019 Wisconsin Act 185, the Wisconsin Legislature expanded the definition of a "prescription drug" covered under the SeniorCare program to include designated vaccinations. Current rules exclude vaccinations from the prescription drug definition. Expansion of rules to provide for adequate regulation of SeniorCare covered vaccinations are needed, including coverage scope, reimbursement and deductible guideline establishment, and record maintenance.

Summary of, and comparison with, existing or proposed federal regulations

The SeniorCare program is authorized through a s. 1135(a) of the Social Security Act waiver approved by the federal Department of Health and Human Services.

Comparison with rules in adjacent states

Illinois:

Not applicable – Illinois does not offer a state pharmaceutical assistance program dedicated to similar population and services to the SeniorCare program population.

Iowa:

Not applicable – Iowa does not offer a state pharmaceutical assistance program dedicated to similar population and services to the SeniorCare program population.

Michigan:

Not applicable – Michigan does not offer a state pharmaceutical assistance program dedicated to similar population and services to the SeniorCare program population.

Minnesota:

Not applicable – Minnesota does not offer a state pharmaceutical assistance program dedicated to similar population and services to the SeniorCare program population.

Summary of factual data and analytical methodologies

The Department formed an advisory committee including representatives of AARP, Board on Aging and Long-Term Care, Dane County Department of Human Services, Fitchburg Family Pharmacy, Greater Wisconsin Agency on Aging Resources, Inc., Pharmaceutical Research and Manufacturers of America, Pharmacy Society of Wisconsin, Inc., Society of St. Vincent de Paul Madison Charitable Pharmacy, and University of Wisconsin-Madison School of Medicine and Public Health. Advisory committee members were provided a copy of draft language of the proposed rule and asked to provide comments.

Analysis and supporting documents used to determine effect on small business

The department solicited the input of SeniorCare providers, including small businesses, as required by state and federal law.

Effect on small business

The proposed rule changes have the potential to impact SeniorCare providers including pharmacies that are small businesses. These providers have the opportunity to provide designated vaccinations as covered services "prescription drugs," which expands services covered by SeniorCare.
